DRESSING ROOMS

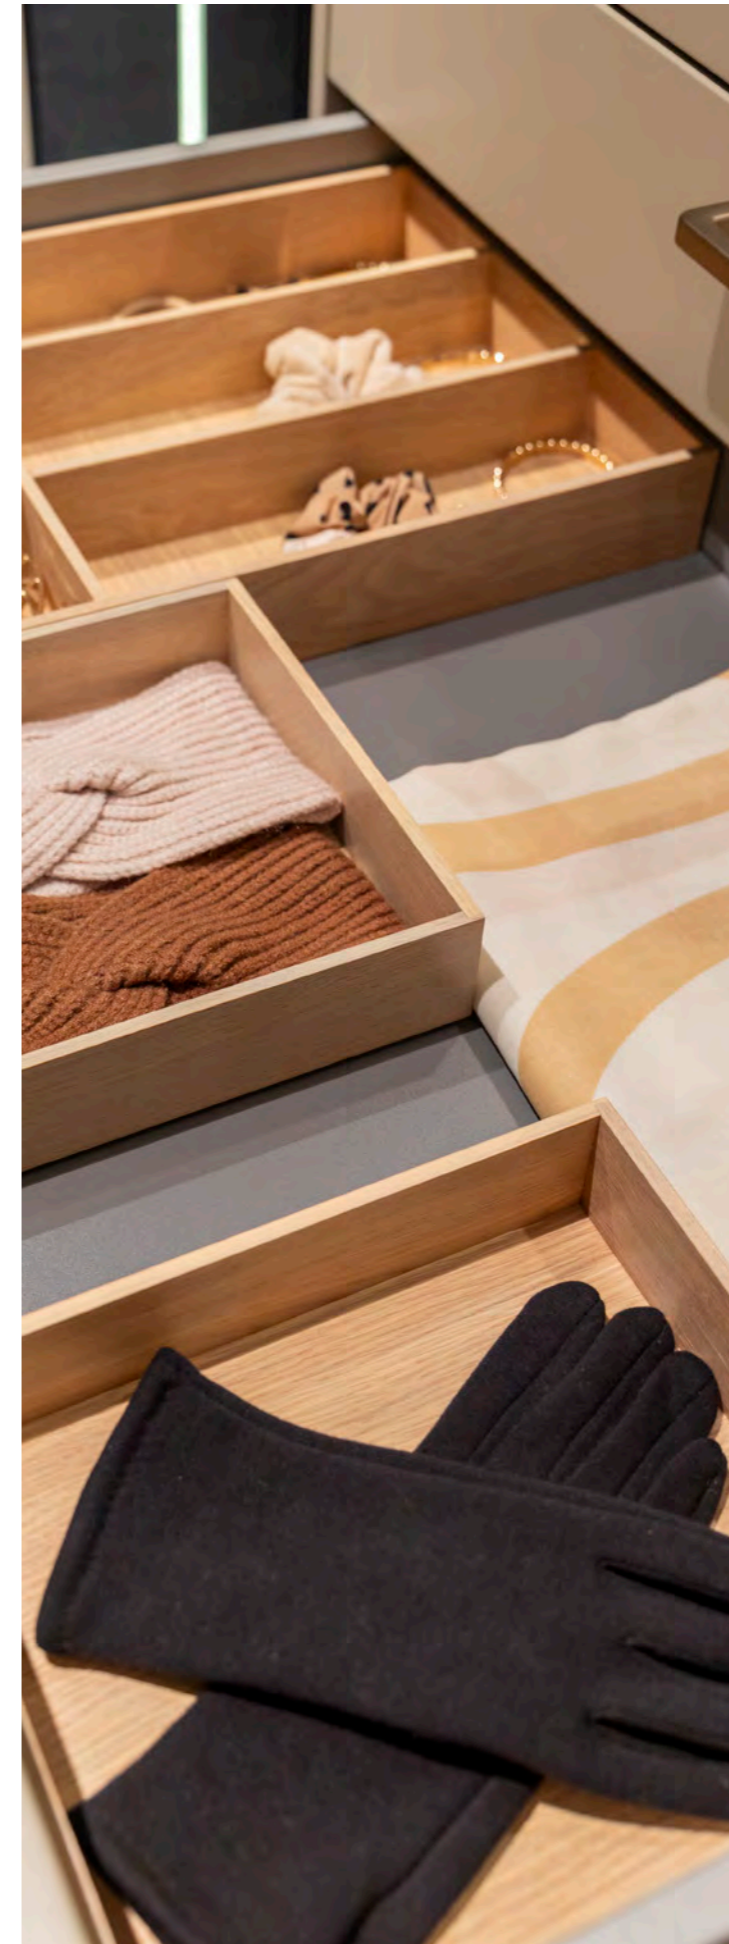

FOR A PERFECT START TO THE DAY

Custom-tailored cabinet and shelving systems create a space where organization and aesthetics become one. With the right colours, lighting effects, and materials, you'll craft a delightful area where everything has its perfect place.

BRINGING THE INTERIOR OF THE CABINET INTO THE RIGHT LIGHT

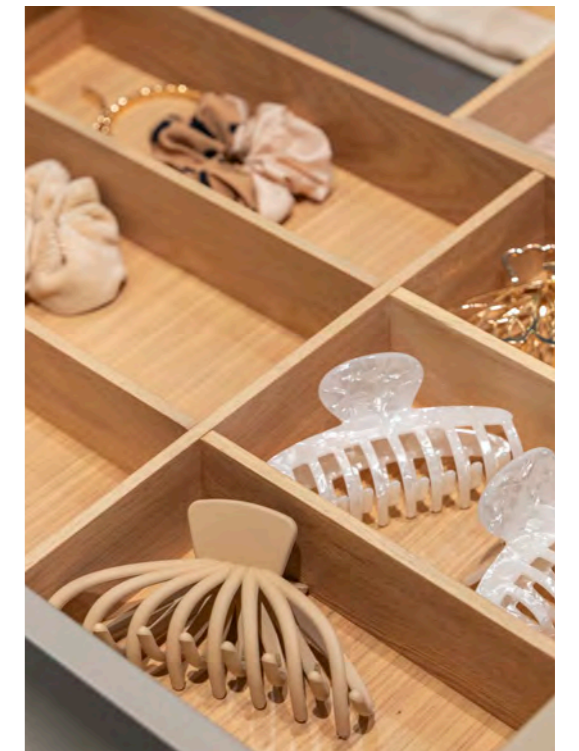

Fumbling through dark cabinet corners? Not with our integrated lighting systems! Whether elegant spotlight from above or linear side lighting: Our LED solutions beautifully illuminate the cabinet interior and impressively showcase your treasures.

PERFECTLY SORTED

Our premium inserts in light beech or dark grey ash offer a practical and aesthetic solution for your drawers and pull-outs. They allow you to store accessories and clothing items in an organized, easy-to-view manner. Who knew organisation could be this beautiful?

CONSCIOUS USE OF COLOURS

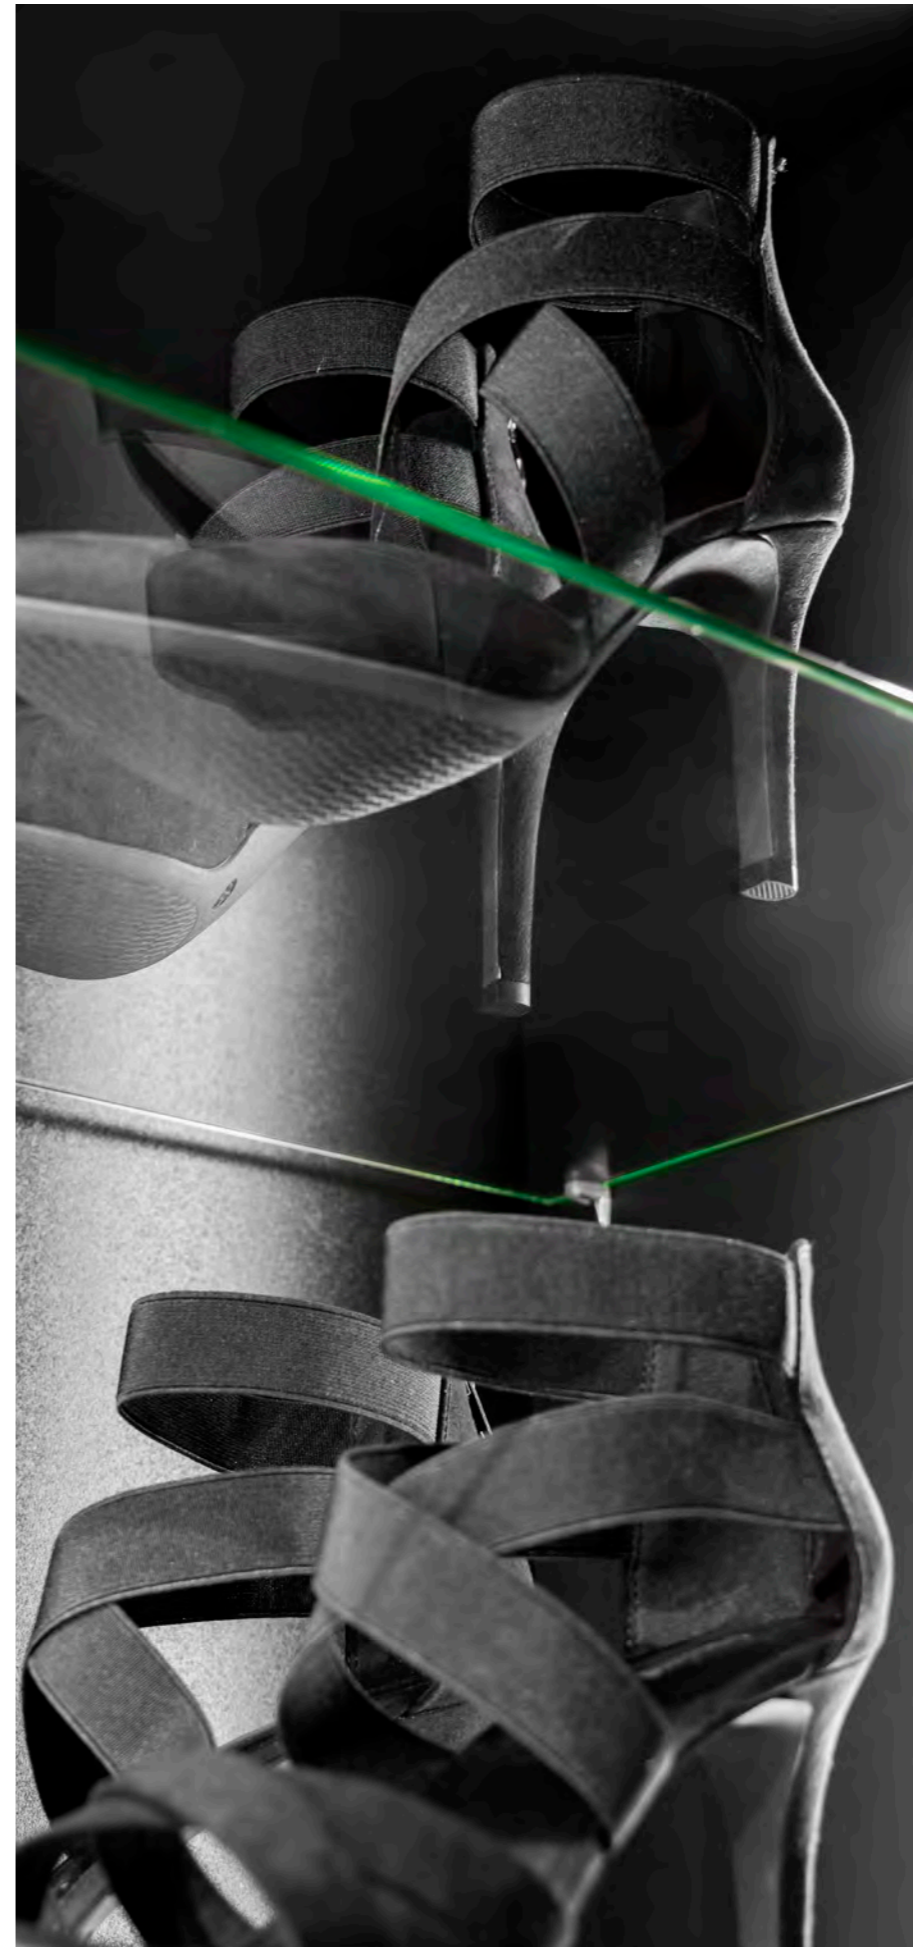

Warm colours like umber-natural are excellent for the colour scheme of the dressing room, best combined with expressive contrasting colours. Our insider tip: Black shelves. They make your clothes truly shine.

TRENDY MATERIAL GLASS

As a premium and elegant design element, glass is a must-have in any dressing room. Glass doors lend an air of exclusivity to the space. Glass shelves create an airy, lightweight feel and provide a stylish, floating appearance.

SIDEBOARDS

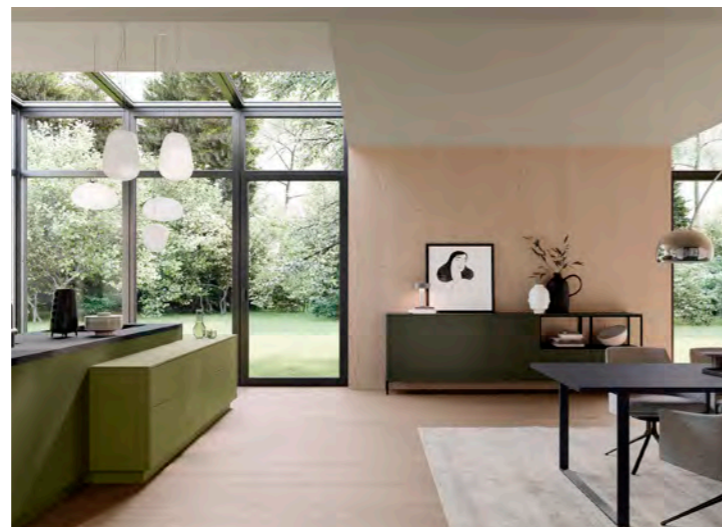

UNIQUE EYE-CATCHERS

The hallmark of our sideboards is their uniqueness. Each board can be individually designed, from the feet to the front design. This allows it to perfectly fit into its surroundings. The result? Cosiness with style

THE COSY ALL-ROUNDERS

Sideboards are particularly aesthetic design elements that simultaneously provide order and a cosy ambiance – whether in the entryway, living room or bedroom. They are especially beautiful for harmonious design of the transition area between open kitchen and living room. Important here: The colour coordination between cooking and living areas.

YOUR SIDEBOARD – YOUR STYLE

Brass-coloured knob, black handle strip, or perhaps no handle at all? Harmonise the sideboard's design with your living style. Sideboards best reveal their spatial impact when you display carefully chosen favourite pieces on their free surfaces – be it books, vases, or art objects.

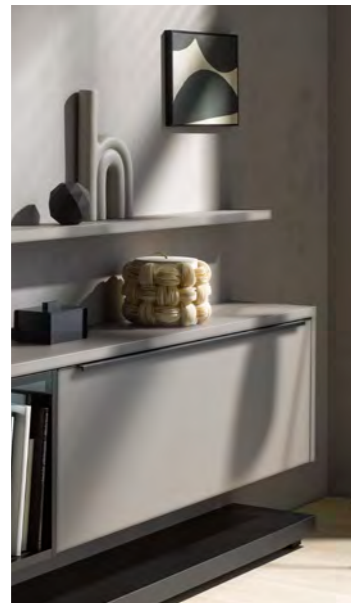

LOWBOARDS

DESIGNING LIVING ROOM WALL SYSTEM INDIVIDUALLY

The living room is a place of relaxation – the place where you unwind and enjoy your evening. Perhaps with your current favourite series? Our freely configurable lowboards offer the ideal framework for your TV system, because you can design them entirely according to your wishes.

HARMONIOUS COMBINATIONS

Lowboards can be beautifully combined with shelves, small cabinets and back panels to create a harmonious wall unit. The uniformity in colour and material creates a harmonious ensemble, with a guaranteed feel-good factor.

A real eye-catcher is this parsol glass display cabinet with elegant metal frame doors. It is available in two heights (156 cm / 195 cm) and can be equipped with either two inner drawers or an inner pull-out.

HOME OFFICE

YOUR FAVOURITE NEW PLACE TO WORK

Large bulky desk and rolling container? You'll find a contemporary alternative in our exclusive, custom-made home office solutions. They offer sufficient space and storage for laptop and work documents – and score with a slim, modern aesthetic.

DESIGNING OPEN SPACES SENSIBLY

Home office spaces can be perfectly integrated into open kitchens. Corner constructions create an independent work area that blends harmoniously into the space due to the uniform design.

HELLO MINIMALISM!

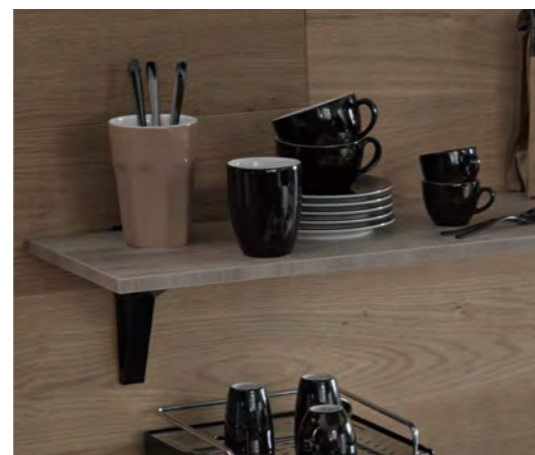

We rely on minimalist solutions. For us, cabinets take over the function of table legs, as they offer plenty of storage space. Classic desk lamp? We prefer to work with mounted or integrated lighting from above. This allows the entire work surface to be optimally illuminated and fully utilised.

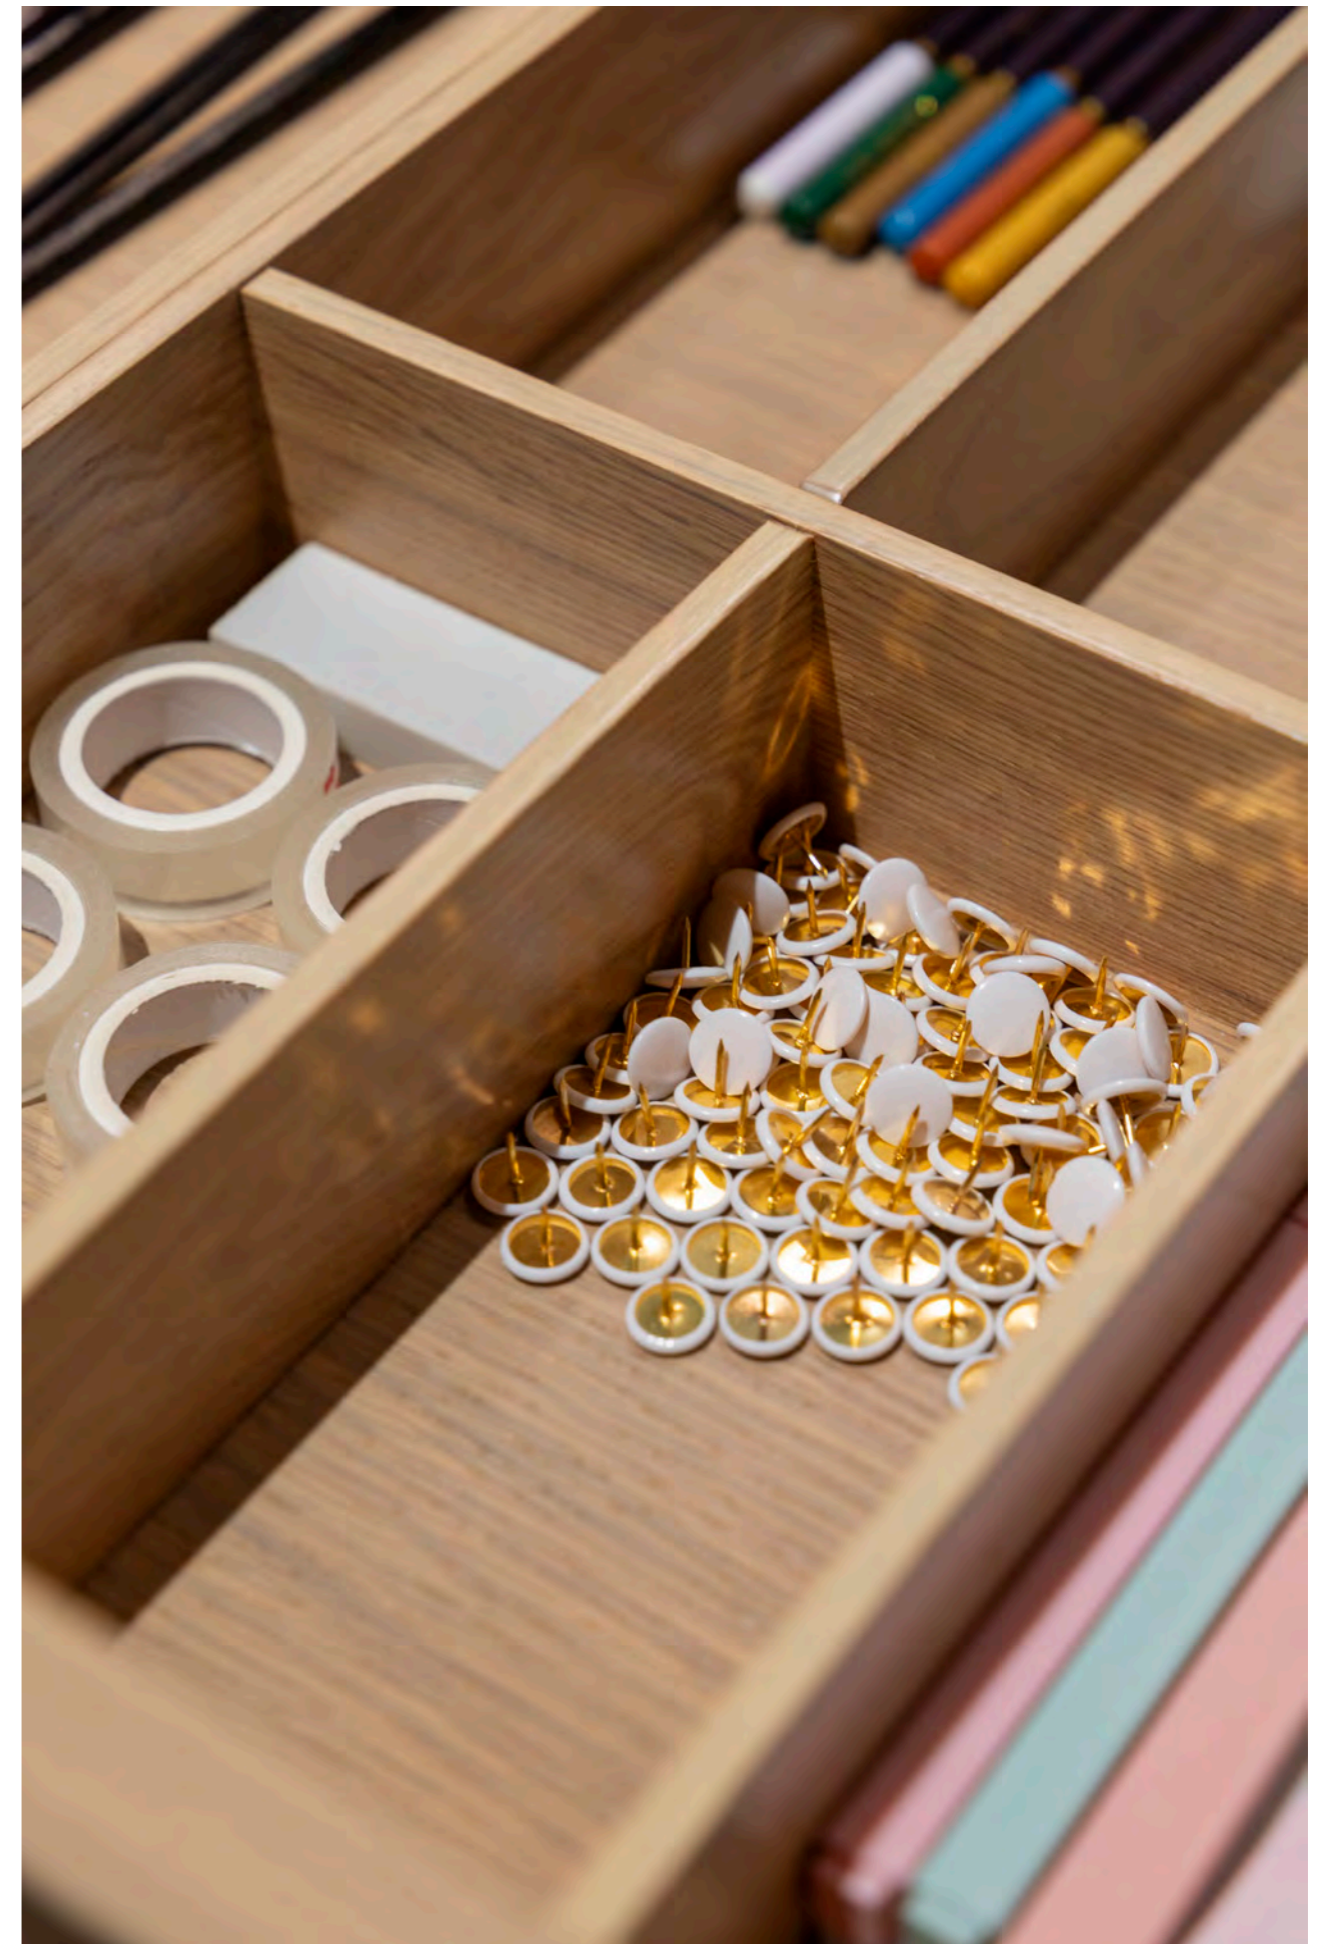

SOMETIMES HOME OFFICE, SOMETIMES COFFEE BAR

The best thing about our home office furniture: Depending on the design, it can be used very flexibly. Spontaneous visit from a friend? No problem. Set your laptop and notebooks quickly aside – and create a nice spot for a cup of coffee. Or two.

PERFECTLY ORGANISED

Where were the ink cartridges again, where the paper clips?
With our organisers for drawers and pull-outs, you no longer have to search – all office supplies are sorted neatly and kept within easy reach.
